2. Mathematics

Choices

3. Afrikaans (2nd Language) **OR** Spanish **OR** German
4. Biology **OR** Geography
5. Physics **OR** Travel & Tourism
6. Chemistry **OR** Business Studies

PLEASE TAKE NOTE OF FOLLOWING:

- To achieve a university entrance a student must have one First Language at the AS level and one Second Language at the IGCSE level.
- All IGCSE subjects are written at the end of Year 10.
- An aggregate of 75% in Year 8 Combined Sciences is needed to select any Science. A limitation of two Science subjects is allowed. Only under extreme circumstances would we consider any student taking all three Sciences. Each applicant will be assessed by management and the assessment will include but not be limited to the overall mark aggregate in Year 8.
- Science and Mathematics can be written on either Extended or Core level. Students can not continue with any Science subjects or Mathematics if they write their IGCSE at CORE level. All students will start with the EXTENDED level.
- To continue with AS level subjects, students must pass all IGCSE subjects with a recommended minimum of a C aggregate.
- Parents and students are responsible for investigating the entrance requirements for specific universities and their specific course requirements.
- For AS level students must select 3 of their chosen 6 IGCSE subjects excluding English which is Mandatory.
